CANALS IN THE NORTHWEST

The Great Development and Increase of Traffic During the Last Few Years.

The first locks at St. Mary's falls were opened in 1855, in which year the registered tonnage was 106.296. The half-million mark was reached in 1863, and the 1,000,000 mark was passed in 1873. In 1881, exactly boincident grow by leaps and bounds, and the ton-Canadian side of the river, and in this has leaped up to nearly 28,500,000 tons. festation of the development which has taken place in the northwest, along ing two lines from the head of Lake little value, are not of much cost. In Superior to the Pacific coast, says the Engineering Magazine. If by some cataclysm of nature the great lakes galaxy of cities from Buffalo to Chieago and Duluth would be overand the railroads could in no wise escape the general disaster.

#### GATHERING OPIUM.

Cultivators Go Forth in the Evening with Lances and in the Early Morning with Pots.

It is a sort of garden cultivation, the poppy plant being grown in little very much larger territory. The ex- funded. 50 cents. For sale by E. T. squares or beds intersected by tiny water channels for irrigation wherever for Civic Improvement met recently this is possible. The growth of the at Springfield, O. The league is to plants is carefully tended, and at hold a week's convention at Chaulength the time comes when they tauqua for discussing all sorts of muburst out into flower, and the fields nicipal reforms. It is believed that look like a sheet of silver as the white political reform and physical reform petals of the flowers glisten in the must go on together. The Spokane morning dew.

produce of the crop, for the women Forestry and Outdoor Art, issues a lies come forth and pick them off one vance the study and the work of civic by one and carefully dry them, so that improvement, especially in the way they may serve afterward as the cov- of planting flowers and trees. There ering of the manufactured cakes of really is no way any longer of keepbare capsule heads, remain standing We believe the day is not far off in the open field until it is considered when every farmer will consider the that they are ripe for lancing. The cultivation of the beautiful just as sides with deep incisions, so that the of which constitute extended public ing the cultivators reappear with a scraping knife and their earthenware oots, and they scrape off the exuded nice and collect it in their pots. And this is crude opium.

#### MUST HAVE THE SWORD.

in Article That Is Necessary to the Completeness of a Naval Surrender.

Naval red tape is as stringent as that existing in the army, and sometimes the enforcement of the regulacions leads to ludierous results. Some years ago, when the late Admiral Skerrett was a captain, an officer who had een charged with an offense and orlered under arrest presented himself to be arrested. Th regulations provide that on such occasion the officer shall be in full dress and wear a sword. The officer wore his uniform, but had

"I can't arrest you," said Capt. Skerett, looking for the missing sword, your sword to me.

The officer explained that he had not received his sword from home. although it had been expressed to him. "Well, you'll have to get one," was the reply.

So the officer skirmished about in the navy yard for someone who had a sword to lend. Finding one, the offender returned to Capt. Skerrett and was promptly and regularly put under arrest according to regulations.

### DOGS REFUSE TO STARVE.

The Clever Little Joke of a German Professor Who Was Called 'o Columbia University.

Some little time ago Prof. Hirth who was called from Munich, Ger nany, to Columbia university as Chinese lecturer, lived in the same house with a rabid vivisectionist, then practicing on half a dozen large dogs. Hirth's colleague was trying to find out how long the dogs could stand being left without food before they would fall upon and devour each other. The dogs were fed on wind for two weeks, yet looked round and happy. The vivisectionist couldn't understand it, says the Washington

Post. The kennel being closed on all sides, it seemed impossible for anyone to feed the dogs on the sly. Still, the fact remained that they refused to starve, even after a month's apparent fasting. Then the viviseclarge chunks of horse meat into the kennel from above. Hirth had allowed each dog six pounds of horse steak and bone a day.

#### COUNTRY IMPROVEMENT.

filtivation of the Beautiful Now Goes Hand in Hand with Cultivation of the Useful.

There are places in the country that will not admit of the word improvement, but as we travel about imong the furnis we are compelled jo acknowledge that town improvement societies are very much needed. with the opening of a new and much At Idaho Falls, in Idaho, one of the larger lock, the northwest began to largest clubs in the state is the Village Improvement society, entirely nage of the canal rose from 2.000,000 composed of women. The object of tons in 1882 to 9,000,000 in 1890 and to these clubs should be to make the 16,000,000 in 1896. During the past five streets clean and beautiful, to enyears, two more enormous locks have courage private owners to keep their been in operation, one of them on the lots and farms beautiful, and their homes teachers of refinement. The short time the tonnage of the canal women of Clinton, X. Y., have placed boxes in the streets to receive waste This colossal tonnage is simply a manipapers and similar rubbish; The Rural Art society, of the same town, is planting linden trees, laying out with which has come the building of small parks and looking out for sim-

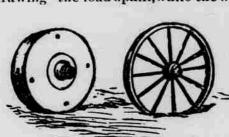

thousands of miles of railroad, includ- ilar enterprises, which, while not of one of the Ohio towns I notice that two rival clubs are in the field. This is perhaps a good idea, for competishould be dried up, the enormous traf- tion in doing good works as well as fic now carried on their waters would in business affairs. The present outbe divided among the railroads - it look is for a rallying of all enterwould simply cease to exist. The whole prises for the public welfare around the schoolhouse as a center. If this can be brought about town organizawhelmed in hopeless, irretrievable ruin | tion will mean something very different from the present disorganization, which gets the state charter. It will place intelligence at the frent and tend to disable the saloon and similar influences.

Meanwhile civic improvement goes forward on parallel lines with country improvement. It seems to be acare to spread out hereafter over a ecutive board of the American league Floral association, which is a com-These beautiful petals are the first | mittee of the State Federation on ment, they scarify the capsule on its highways—mostly trolleyways—all juice may exude. In the early morn- parks .- E. P. Powell, in N. Y. Trib-

#### BROAD-TIRED WHEELS.

They Are Far Better for Ordinar Farm Work Than Those Now in General Use.

This picture of two wheels, one a wide tire and the other a narrow, show why the former is easier to draw and is better for ordinary farm work than the latter. The narrow tire sinks into the soft soil and the team is all the time drawing the load uphill, while the wide

WIDE AND NARROW TIRES.

'unless you come prepared to submit | tire rolls over the surface on a level. Besides the difference in draft the rut cut by the narrow tire works injury to the crop by mashing it below the surface, and checking if not preventing all further growth, and by making drains into dead furrows or down hills to carry off soluble fertility, or, perhaps, start gullies. Every farmer needs one wagon with low, broad-tired wheels .- Farm Journal.

Cheap Material for Roads, It has been discovered that burnt gumbo is a most serviceable material for use on country roads. It is not quite as durable as is crushed stone but is far superior to dirt. Its cost is slight, as it can be produced without the use of skilled labor. The burning of the gumbo removes the quality that when the clay is wet causes stick iness. This burnt clay is used for capping the road. The road-bed must be well drained and well built before the top of burnt clay is put on. It is claimed that if people will adopt the burnt-clay idea, roads as good as those in France can be constructed in this

the roads.

country with no additional expendi-

ture over that now being required by

How to Put Up Alfalfa. This is the way a South Dakota farmer puts up aifalfa: For stack bot- the age of seventy-six, eats anything she ly upon the blood and mucous surfaces tom use any old material eight or ten inches deep, seven or eight feet wide and as long as you need. Have some good dry hay or straw ready Cut the alfalfa when about half in ionist watched, and discovered that bloom in dryest part of day and let it late at night Prof. Hirth had lowered | thoroughly wilt or cure until you can press it into a wad between your hands. Haul to stack and put a layer of eight or ten inches of alfalfa; then dry hay or straw, then alfalfa a foot; hay or straw eight or ten inches, and so on until as high as wanted. Dry mate-Sheep and cattle cannot pasture rial must be eight inches in middle to over the same territory. Where the nothing at the edge of stack. This express in action what we have not yet queried the talkative barber. "Off!" sheep wander the grass is gleaned is the scientific and only way to cure attained and made our own, but our un- snapped the disagreeable patron. And

#### VERSES, GRAVE AND GAY.

Daddy's Sentinel. When Daddy went away to fight And kissed us all good-by He held me in his arms so tight

And told me not to cry-"My gallant little sentinel," He whispered, "you must be, And you must guard dear Mother well,

And so I take my sword and gun And drill and march each day Until the fighting all is done And sentinels can play:

And when dear Mother's face looks sad I tell her not to fear— Though Daddy's gone I know she's glad His little sentry's here!

And when I kneel to say my prayer To God so good and kind-"Please keep our soldier safe, and care For those he left behind." I somehow think He hears and knows While far across the foam

Dear Daddy fights his country's foes

His boy's "on guard" at home!
-Mary Farral, in Good Words. A Song of the Morning. Oh, I'll not awake to worry Over what the night may bring

If the morning's dark and dismal

And I hear the robin sing; I will rise and start out bravely if morning's only bright. And I'll earn the joy he's heir to who can

Joy is in the splendid morning when the birds are on the wing. Oh, I'll not awake to worry Over what may come ere night,

And no songsters are in sight; I will rise and start out bravely, hoping, as the honest may, That the prizes I have dreamed of may not so far awayIf the morn is dark I'll fondly hope the

day may bring delight.

S. E. Kiser, in Chicago Record-Herald.

to get a bottle of Painkiller, examine it carefully to see if it is made by Perry Davis, and don't be persuaded to take some "just as good" because it is 1 few cents cheaper. There is only one Painkiller, "Perry Davis'." Large bottles 25 and 50c.

"People don't do good deeds without motive." "No: there are usually extenuating circumstances."-Judge.

POISONING THE SYSTEM.

It is through the bowels that the body is cleaned of impurities. Constipation keeps these potsons in the system, causing headache, duliness and melancholia at first, then unsightly eruptions and finally serious illness unless a remedy is app'ted. DeWitt's Little Early Risers prevent this trouble by stimulating the liver and promote easy, healthy action of the bowels. These little pills do not act violently but by strengthening the bowels enable them to perform their own work. Never gripe or distress.

The pitcher that goes often to the well is likely to be broken, especially if the bired girl carries it.-Chicago Record Herald.

MOTHER ALWAYS KEEPS IT

HANDY. "My mother suffered a long time health due primarily to indigestion," says L. W. Spalding, Verona, Mo. 'Two years ago I got her to try Kodol. She grew better at once and now, at wants, remarking that she fears no bad effects as she has her bottle of Kodol handy." Don't waste time dec toring symptoms. Go after the cause If your stomach is sound your health will be good. Kodol rests the stomach and strengthens the body by digesting your food. It is nature's own tonic.

There is a vast difference between doing and being. We may conscious'y

### FOR OVER SIXTY YEARS.

Mrs. Winslow's Soothing Syrup has been used for eixty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, alias all pain, cures wind colic, and is the best tremedy for Diarrhoea. It will relieve the poor little sufferer immediately. Sold by Druggists in ever part of the world. Twenty-five cents a bottle. Be E. T. Whitehead & Co.

Over-Work Weakens Your Kidneys. Unhealthy Kidneys Make Impure Blood.

All the blood in your body passes through your kidneys once every three minutes. The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the

blood, due to neglected kidney trouble. Kidney trouble causes quick or unsteady heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their begin-

ning in kidney trouble. If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases by all druggists in fifty-cent and one-dollar siz-

es. You may have a sample bottle by mail Home of Swamp-Root. free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.
